

EHS Policy

GESTAMP-HUNGÁRIA Kft.

GESTAMP-HUNGÁRIA Kft. is specialized in the development, production and painting of cut, stamped and assembled metal parts for the automotive industry.

Having awareness of the impact of its activity on the environment, and on the health and safety of its collaborators, the Management is committed to continuously, and according with GESTAMP Corporate policy, to:

- Ensure the conformity with the legal requirements (Hungarian and European), and the requirements of the relevant interested parties ;
- take actions regarding the environmental protection and pollution prevention by managing our significant environmental impacts, particularly in :
 - reducing our power consumption (gas, electricity) and our consumption of natural resource (water)
 - reducing the quantity of our urban solid waste,
 - reducing our consumption of consumables such as gloves and paper,
 - avoiding neighbourhood impact by our odour emission from the KTL
 - raising the awareness of the employees toward our significant environmental impacts so that they contribute to the environmental protection (sort waste, response to emergency cases, energy efficiency, etc.).
- improving our target according to the health and safety criteria of GESTAMP Corporate in order to improve our position between the different plants of GESTAMP in the world ;
- preventing the risk of work accidents (reduce the number of work accidents and the number of days lost);
- control the danger of fire and explosion.

Everyone's subscription and contribution to the continuous improvement of our EHS policy is the condition for our success.

For this reason, Management will share this policy with the relevant interested parties, (employees, clients, authorities, external companies, etc.), as well as sharing knowledge for the operational control of our commitments to Environment and Health & Safety.

The 12th of July 2018,
